***Response to Amendment***

The amendment to the claims filed on August 6, 2008 does not comply with the requirements of 37 CFR 1.121(c) because the claim text markings do not appear to represent amendments to the claims filed in the Preliminary Amendment on June 22, 2005. Rather the claim text markings would appear to indicate amendments to the originally filed claims which were identical to those of the international application. The amendment to the claims contains numerous instances of strike-through text indicating deletion of text that had already been marked for deletion in the preliminary amendment, numerous instances of missing text that had been added in the preliminary amendment, and instances where text that had been deleted and replaced in the preliminary amendment is again presented without appropriate markings. These instances of erroneous claim text markings and improper insertion or deletion of subject matter are present in almost all of the claims. Rather than explicitly point out each and every instance of improper amendment to the claims, requiring a discussion comparing the three versions of the claims due to amendments and text markings being applied to the wrong version, which could lead to extensive confusion, the examiner suggests applicant carefully review each and every one of the claims and desired subject matter and amend the version of the claims filed in the preliminary amendment, accordingly with appropriate claim text markings.

Amendments to the claims filed on or after July 30, 2003 must comply with 37 CFR 1.121(c) which states:

(c) *Claims.* Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will

serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

(1) *Claim listing.* All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of “canceled” or “not entered” may be aggregated into one statement (e.g., Claims 1–5 (canceled)). The claim listing shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.

(2) *When claim text with markings is required.* All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of “currently amended,” and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of “currently amended,” or “withdrawn” if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as “withdrawn—currently amended.”

(3) *When claim text in clean version is required.* The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, i.e., without any markings in the presentation of text. The presentation of a clean version of any claim having the status of “original,” “withdrawn” or “previously presented” will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of “withdrawn” or “previously presented.” Any claim added by amendment must be indicated with the status of “new” and presented in clean version, i.e., without any underlining.

(4) *When claim text shall not be presented; canceling a claim.*

(i) No claim text shall be presented for any claim in the claim listing with the status of “canceled” or “not entered.”

(ii) Cancellation of a claim shall be effected by an instruction to cancel a particular claim number. Identifying the status of a claim in the claim listing as “canceled” will constitute an instruction to cancel the claim.

(5) *Reinstatement of previously canceled claim.* A claim which was previously canceled may be reinstated only by adding the claim as a “new” claim with a new claim number.

Since the reply filed on August 6, 2008 appears to be *bona fide*, applicant is given a  
TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this  
notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR

1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
